Forecast for Monday 30 Nov 2020

Weather: Cloudy with outbreaks of rain and drizzle overnight and during the morning, occasional heavy and a touch wintry over the highest summits. Some drier spells by midday and the cloud lifting and breaking in the afternoon to give sunny spells. Mainly dry with some clear spells in the evening with a frost forming, although isolated wintry showers are possible.

Chance of cloud free mountain/hill tops above 800m: Nil to 20% early morning. 40% around midday with the drier and brighter conditions coming in from the north and 80% by dusk, with any significant cloud near or above the summits.

Visibility: Moderate or poor at times overnight and during the morning, very poor at height. Becoming very good or excellent in the afternoon.
